The Canova difference

CUSTOMER SERVICE

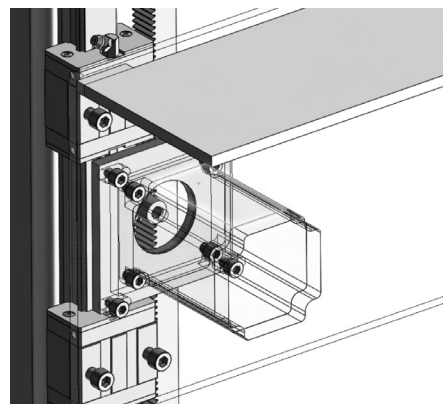

At Canova we believe that every client is unique and we are inspired by their vision and personality to craft custom solutions that defy mass objectification and convey the idea of craftsmanship for luxury and comfortable living.

TAILOR MADE IN ITALY

Canova is a quintessentially Italian brand: all products are designed by a team of professional Italian creatives and are custom made in manufacturing facilities located in the Venetian region, the world's heart of the high end furniture industry.

PROPRIETARY TECHNOLOGY

Passion for design, curiosity and attention to the ever changing needs of contemporary households are the driving forces of our design and engineering team, who is always seeking new advanced solutions, hardware and finishes to integrate.

SPECIAL MATERIALS

From veneer to stone (natural and man-made), glass, metals, corian, laminates, etc.. Canova offers one of the most comprehensive range of materials, colors and finishes in the industry and our staff is available to help clients discover all the ways there are to express their style.

MECHANISMS

CANOVA

NERO CUCINE SLIDING TOP

CORIAN SLIDING COUNTERTOP

The Sliding Top, is designed to provide extreme versatility. While the countertop silently slides ahead through a gentle push, it reveals cooktops and a sink with a retractable faucet.

NERO CUCINE WING TOP

MARBLE SLIDING COUNTERTOP

The wing top collection features a patented mechanism able to lift a stone countertop 10' (3 mt) long and $\frac{3}{4}$ " (20 mm) thick, that conceals a customizable stainless steel professional cooking surface underneath. Lifting the wing will help even the most creative chefs protect the natural beauty of the stone without having to compromise the design.

MULTI-UNITS

CANOVA

CANOVA FACTORY

Canova's strength is in our capability to provide residential millwork solutions for large multi-unit projects without compromising on quality. Our manufacturing plant is located in the Venetian region, the world's heart of the quality furniture making industry. In over 60,000 square meters warehouses we handle all the wood processing with rigorous attention to details, precision and cutting edge technologies including a high-tech 5-axis CNC machine, through which infinite design possibilities can be processed. With a production capability of as many as eighty kitchens per day, the Canova factory is the reliable quality partner for medium and large multi families developments.
